From Leningrad it was learned that, last spring, the majority of the young naval officers graduating from the Admiral Nakhimov Naval School (located on Vasilevskiy Island in Leningrad) were being sent to the Far East with young cadre, to strengthen the fleet in the Far East. This fleet finds itself practically on a war footing as a consequence of the constant watch they must maintain and the observation of the heavy American bombing of the North Korean coast, in many cases only 40 to 50 kilometers distant from Vladivostok.
